

Living Harmony

Living Harmony Workshop in Slovenia

June 21st & 22nd 2008

Developing your Sensitivity and Intuition

In order to develop your sensitivity and intuition you need to enhance your awareness and connect with All That Is with an open and accepting heart, and with true humility. This cannot be achieved in a weekend but we can reawaken this innate ability that is in all of us.

In the beautiful setting of the Living Harmony Centre, Gaberje, and the tranquil landscapes of Prekmurje, an energetically rich land in Eastern Slovenia, you will learn to:

- Become self aware and accepting
- Enhance your sensitivity to the energies in nature
- Recognise and honour the Divinity in All
- Experience and create special energetic places
- Participate in environmental healing

Workshop cost: £100.00 + flight, local transport and 3 nights' accommodation (possibility of "camping" in house onsite for free)
